PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building secure and scalable applications using Java, Spring Boot, React.js, RESTful APIs, and Microservices. Proficient in Spring Security, JWT, Hibernate/JPA, MySQL, PostgreSQL, JUnit, and Mockito. Developed 6+ full-stack applications, 30+ REST APIs, and role-based systems supporting 100+ users with 80%+ test coverage.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Backend: Spring Boot, Hibernate, MVC, JPA, Spring Security, JWT, REST APIs, Redis, Microservices, JDBC, Servlets, JSP

Frontend: React.js, Angular JS, HTML5, CSS3, Tailwind CSS, Responsive Design

Database: MySQL, PostgreSQL, MongoDB

DevOps & Tools: Git, GitHub, Maven, Postman, JUnit, Mockito, Docker, AWS (EC2, S3), CI/CD

Concepts: OOP, Data Structures, Multithreading, Agile, SDLC, MVC, Exception Handling, System Design

EXPERIENCE

Java Full Stack Developer (Intern) — Seeree Services Pvt. Ltd.

Oct. 2025 – Apr. 2026

Bhubaneswar, Odisha

- Developed banking backend services using Spring Boot and MySQL, supporting 100+ users with role-based access control.
- Implemented JWT authentication and Spring Security to secure REST APIs, enforce role-based access control, and protect sensitive banking operations.
- Designed and developed 25+ RESTful APIs for banking transaction workflows, improving backend modularity, maintainability, and API integration.
- Maintained 80%+ unit test coverage using JUnit and Mockito to improve code reliability and stability.

PROJECTS

Secure Digital Banking Management System | [Code](#) [Live](#)

Java, Spring Boot, Spring MVC, JSP, MySQL, JWT, Spring Security, REST APIs, BCrypt, JUnit

- Engineered a secure Spring Boot banking platform with account management, fund transfers, transaction processing, OTP verification, and role-based access control.
- Implemented fraud detection, Razorpay payment integration, AI chatbot support, automated EMI reminders, and biometric authentication.
- Built **30+ REST APIs** for banking workflows and implemented secure authentication using BCrypt, OTP, and HMAC-SHA256 verification.

DevScout AI – AI-Powered GitHub Developer Analyzer | [Code](#) [Live](#)

Java, Spring Boot, React.js, JavaScript, GitHub API, Gemini AI, Recharts

- Built an AI-powered full-stack platform using Spring Boot and React.js to analyze GitHub repositories, detect technologies, evaluate developer skills, and generate recruiter-ready insights.
- Developed REST APIs for **AI-powered skill scoring**, technical assessments, experience-level detection, and hiring recommendations.
- Created an interactive recruiter dashboard with skill visualization, role-fit insights, and professional PDF report generation.

FlashReserve – High-Concurrency Ticket Reservation Engine | [Code](#)

Java 17, Spring Boot, PostgreSQL, Redis/Redisson, React.js, Razorpay

- Architected a high-concurrency reservation platform with Spring Boot, PostgreSQL and Redis/Redisson, supporting 5-minute distributed seat holds and preventing duplicate reservations under traffic spikes.
- Orchestrated transactional seat booking with optimistic locking, distributed locks and 10 requests/user/second rate limiting, maintaining inventory consistency across concurrent clients
- Integrated JWT authentication, Razorpay test-mode payments and booking lifecycle management across 30+ REST APIs, validating a 6-user concurrent race with exactly 1 successful reservation and 5 conflicts.

EDUCATION

United School of Business Management

Bhubaneswar, Odisha

Master of Computer Applications (MCA) — CGPA: 8.3

2024 – 2026

Bhadrak Autonomous College

Bhadrak, Odisha

Bachelor of Science (B.Sc.) in PCM — CGPA: 7.43

2020 – 2023

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Cloud Computing – NPTEL; Introduction to Generative AI – Google Cloud (Coursera)

Achievements: Designed and documented 40+ REST APIs, reducing backend integration time by approximately 30–35%; Solved 200+ Data Structures and Algorithms problems on LeetCode and HackerRank.
